### **DETAILED ACTION**

*Because of applicant's amendments to the claims and drawings, the specification, drawing, and claim objections, as well as the 112 rejections, of the prior office action have been withdrawn.*

### ***Claim Rejections - 35 USC § 103***

*The 103 rejections of the prior office action have not changed.*

### ***Response to Arguments***

1. Applicant's arguments filed 4-25-2005 have been fully considered but they are not persuasive because of the following reasons: Applicant argues that the modified Dosoudil doesn't teach a control system that continuously adjusts the valve opening to discharge as much cake as is produced. However, it is pointed out that such a control system is not claimed in claim 1. *See the italicized portion of section #7 in the last office action.* Applicant argues that Westbrook does not have the ability to discharge sludge since the particles thereof would be too large. However, it is contended that upon modification, it would have been obvious to size the discharge apertures 36 of Westbrook to accommodate the intended use (i.e. sludge).

### ***Conclusion***

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is

not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
